## CASE STUDY

NTT docomo

SAFR

- Vertical: Telecommunications
- Case: Secure Touchless Access Control over 5G
- Infrastructure: Cloud (Docomo Open Innovation Cloud)
- Solution:
  - Remote verification
  - Remote access control
  - Entry/exit management

## CASE STUDY

**CDMX**  
CIUDAD DE MÉXICO

**SAFR**

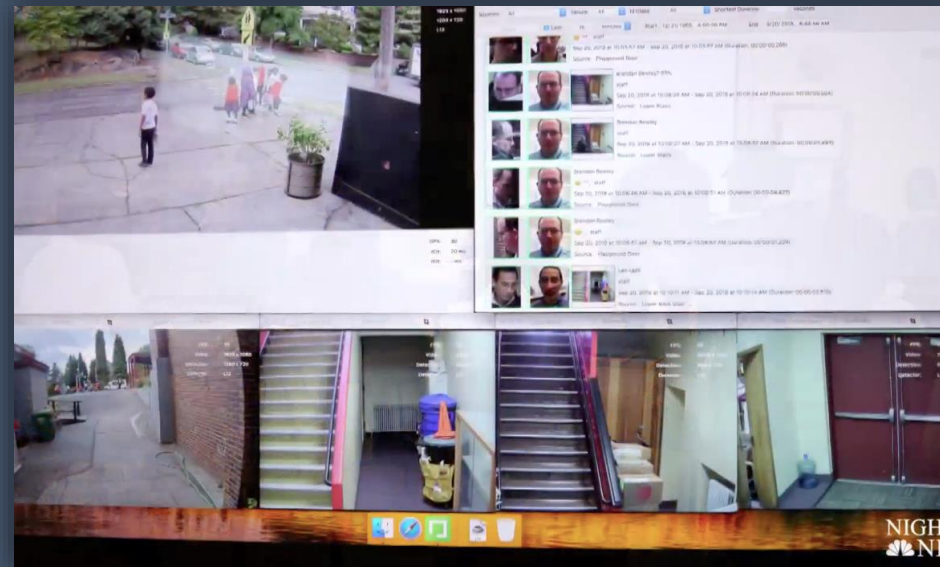

- Vertical: Transport
- Case: Passengers monitoring
- Infrastructure: Cloud (Omnicloud)
- Solution:
  - Camera in vehicle
  - Face Count
  - Gender
  - Age
  - Sentiment
  - Reporting dashboard

- Vertical: Schools
- Case: Schools Security and Access Control
- Solution:
  - People Monitoring
  - Secure access
    - Existing camera equipment
    - On boarding iPad

# Brazil Praia Grande

“Even if you have different hair, are thinner or fatter, or if you have changed from the time of the photo, the recognition is 100%”

✓ Watchlist Monitoring (+1000 photos in DB)

✓ Public Safety

Effects of Monitoring

**60%**

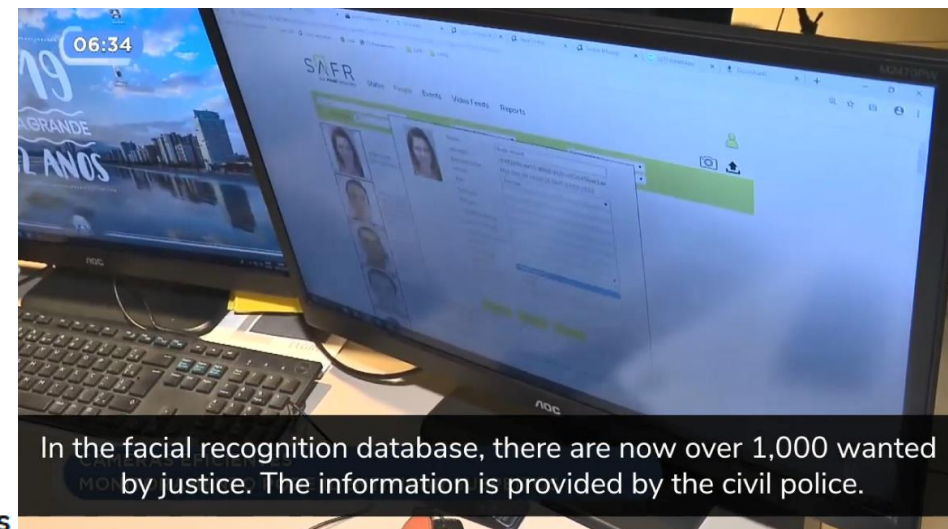

Reduction in crime across monitored areas

**100%**

Accuracy with the Civil Police watchlist of registered criminals

**~0**

Almost no criminal activity in public buildings

**Location:** Praia Grande, São Paulo, Brazil

**Population:** 319K+

**Type of Deployment:** Public Safety

**Use Cases:** Surveillance, Watchlist Monitoring, Analytics

A smart city on the São Paulo coast, Praia Grande hosts more than 2 million tourists a year.

## CASE STUDY

# MLB STADIUM

SAFR +  milestone

“We have over 1,000 vendors for each game but didn’t know if the person using the badge was the authorized vendor”

SAFR worked with an MLB stadium to secure back-office and vendor access. Previously, it was impossible to know if the person scanning a badge was the authorized staff member or vendor. Now, with SAFR, each vendor is screened to ensure they are who they say they are.

- ✓ Vendor Screening
- ✓ Secure Access
- ✓ Security Surveillance

## CASE STUDY

# CASINO GROUP

SAFR +  milestone

“We have 10 remote locations where we operate a large database to track potential threats and improve operations”

SAFR worked with a large casino with multiple locations to manage watchlists and recognize VIPs, criminals, advantage players, self-excluded guests, and BOLOs. The SAFR solution was integrated with Milestone XProtect.

- ✓ Watchlist
- ✓ AML Compliance
- ✓ Consumer Engagement

CASE STUDY

# OKTOBERFEST

SAFR +  digifort

SAFR worked with Digifort to provide watchlist and surveillance capabilities for 8 Facial Recognition cameras to the city of Blumenau during the Oktoberfest event.

SAFR worked with local police to integrate with Drones and other law enforcement bodies.

- ✓ Watchlist Monitoring
- ✓ Public Safety
- ✓ Drone Integration

## CASE STUDY

# UNIMED

SAFR® +

Grupo  
**SCHMITD**  
Serviços **26**  
anos
